What type of information does Komen COLLECT and how is the information USED?

While you are visiting the Sites, Komen may collect two types of information about users: "Personal Information" (such as name, email address, mailing address, phone, credit card or debit card, personal preferences and other account-related information) and "Aggregate Information" (such as information about how many users log on to the Sites on a daily basis).

Personal Information is collected online when you voluntarily submit non-public personal information on the Sites by requesting information, purchasing our products, signing up for an account or other Services, receiving electronic notices or other similar communications and other similar activities.

Aggregate Information is non-personally identifiable/anonymous information about you, such as pages most frequently accessed by you, time spent on a page or area of the Sites, the number of visits to the Sites by you, types of browser used by you, cookie preferences or search terms entered by you. Aggregate Information is used in a collective manner, and no single person can be identified by that compiled information (for example, the number of people who logged into the Sites in a particular day). Aggregate Information does not personally identify a specific user.

Personal Information That You Provide to Us

We may obtain Personal Information about you ONLY if you elect to give us that information. Types of Personal Information may include the following:

- Name
- Address
- Zip code
- Telephone number
- Occupation
- E-mail address
- Credit card number and expiration date (for online purchases or donations)
- Name of organization (where applicable)
- Breast cancer survivor or relationship to a breast cancer survivor

We may request Personal Information, such as your user name or password, whenever you login to your account and may in limited circumstances ask you to provide credit card information and other personal information when purchasing goods that are offered for sale on our Sites or when making a donation online. We reserve the right to request any additional information necessary to establish and maintain your account. Generally, our uses of Personal Information collected online include, without limitation, responding to your inquiry about volunteering time to Komen, enabling you to make a donation, purchasing a product from the Sites, or providing information, such as sending marketing communications and newsletters.

Komen will retain your Personal Information for fulfillment of the intended purposes for which such Personal Information is collected. Komen will establish minimum and maximum retention periods based upon the type of information collected (i.e., sensitivity), the intended purposes and as otherwise may be legally required.

Personal Information shall NOT include any personal information posted or sent by or to you in any public forum (such as a message board) or a personal home page (if any) on the Sites. Participation in these public forums and Komen fundraising initiatives requires the public release and dissemination of such information, and thus Komen cannot commit to treating such information confidentially in the same manner that other personal information will be treated under this Privacy Policy. Participation in these programs is voluntary and thus your consent to certain terms is required before participation is allowed.

Aggregate Information Collected Automatically

When you visit the Sites, we automatically collect Aggregate Information about your visit. We can tell the type of computer, browser, and web service that you are using. We also know the date, time, and pages that you visit. Collecting this information helps us design the Sites to enhance your experience while on our Sites.

Komen also may use Aggregate Information for internal purposes, such as tracking demographic data and providing targeted content to make the Sites more useful to our visitors. The gathering of this Aggregate Information may be accomplished by the use of cookies or web beacons by Komen and its third party service providers. In particular, Komen will collect an IP Address from all visitors to the Sites. An IP Address is a number that is automatically assigned to your computer when you use the Internet. Komen may share Aggregate Information with its research grant recipients, content providers, sponsors, service providers or other third parties to advance the goals of research, education, dissemination or information and otherwise in fulfillment of the Promise. We use IP addresses to help diagnose problems with our server, administer our Sites, analyze trends, track users' movement on the Sites, gather broad demographic information for aggregate use in order for us to improve the Sites, and deliver customized, personalized content. IP addresses, however, are not linked to Personal Information. Komen also may use a unique assigned number located with the Sites' URL to determine the web site from which you navigated to get to the Sites. While this number may not be apparent to you, it does not contain your Personal Information.
